REFRESHING MOUNTAIN CAMP - Activities Release and Waiver Form (SIDE A)

Description of Activities

Refreshing Mountain Camp, Inc (hereafter RMC) provides structured activity opportunities for environmental education and adventure recreation. These activities include:

| Activity Options | | | | |
|---|---------------------|--------------------------|---------------------------|--------------|
| Archery | Geocaching | Wildlife Programs | Physical Challenge Course | Swimming |
| Campfire | Giant Swing* | Orienteering | Rappel* | Teambuilding |
| Climbing Wall/Tower* | Giant's Ladder* | Paint Ball Target Course | Scavenger hunt | Wobbly Log* |
| Equestrian Activities | Elevated Obstacles* | Pedal Carts* | Sling Shots | Ziplines* |
| | | | | |
| * indicates that this type of activity will involve safety equipment like harnesses, helmets, and fall-restraint devices, and participants will potentially be 10-70' above ground at various points of the activity. | | | | |

A detailed description of these activities can be obtained by visiting www.refreshingmountain.com/activities or by calling 1-888-353-1490.

Challenge By Choice

Participants in events will be encouraged to participate in activities that may challenge them to push past their perceived fears and comfort, but at no time will a participant be coerced into participating in something that he/she wishes to decline. All activities are "Challenge by Choice" and at any time, a participant may choose to remove himself/herself from the activity.

Medical Concerns

Participants must be reasonably fit. Activities are designed for use by participants of at least average mobility and strength who are in reasonably good health. Obesity, high blood pressure, cardiac and coronary artery disease, pulmonary problems, arthritis, tendonitis, and other joint and musculo-skeletal problems and some psychological and psychiatric problems, may all increase the risks of the experience and cause the participant to be a danger to him/her or others. If you are uncertain as to whether or not you are fit enough to participate, you should consult your doctor before doing so. Certain activities have weight, height, and age restrictions.

Inherent and Other Risks

Given the nature of these activities, the risk of injury certainly exists, by reason of falls, contact with other participants and fixed objects, moving about the grounds on which the activities are initiated and conducted, and otherwise. Several risks are inherent to the activities. These are risks that cannot be eliminated without changing the essential nature and educational and other values of the activities. The emotional risks range from simple hurt feelings to panic and psychological trauma (fear of heights, for example). The physical risks range from small scrapes and bruises, to bites, stings, skin rashes, broken bones, sprains, neurological damage, and in extraordinary cases, even death. The property on which these activities are located includes uneven, rocky and wooded terrain, cliffs, ravines, springs, animal holes, and hold potentially harmful plants and animals which may bite or sting. Injuries may be a natural consequence of the activity undertaken, a consequence of structural design or failure, as a result of environmental hazards (including terrain and weather), a result of errors of judgment or other negligence of staff or participants or otherwise; and may occur in spite of the reasonable efforts of staff to prevent them. In all such cases, these inherent risks, and other risks which may not be inherent, are assumed by those who choose to participate.
